steamer Lautaro, sunk by the Liberals during the naval engagement of Monday last, will sail tomorrow for Valparaiso on the Chilean steamer Lao.

CHILEANS ASK INDEMNITY.

BY THE NEW ASSOCIATED PRESS-P.M.

BERLIN, Jan. 22.—[By Atlantic Cable.] The Campana Sud Americana de Valparaiso will demand £25,000 for the loss of their steamer, the Lautaro, which was seized by the late Colombian general, Carles Alba, and sunk by the Colombian Liberals during the naval engagement of last Monday in the harbor of Panama.

ENGLAND.
**FIRST ANNIVERSARY
OF GOOD QUEEN'S DEATH.**

**ENGLISHMEN COMMEMORATE IT
ALL OVER THE WORLD.**

Royal Family Attends Services in the Frogmore Mausoleum and the German Ambassador Lays a Wreath from Emperor William on the Tomb.

BY THE NEW ASSOCIATED PRESS-P.M.

LONDON, Jan. 22.—[By Atlantic Cable.] The first anniversary of the death of Queen Victoria today was marked by commemorative services throughout the United Kingdom and the colonies and at the British embassies.

At Windsor, King Edward and Queen Alexandra, most of the members of the royal family, Lord Salisbury, Lord Rosebery and the German Ambassador to Great Britain, Prince Von Wolff-Metternich, attended a service at noon in the Frogmore mausoleum.

The German Ambassador laid a wreath from Emperor William on the tomb.

SUGAR CONFERENCE.

BY THE NEW ASSOCIATED PRESS-P.M.

LONDON, Jan. 22.—[By Atlantic Cable.] The correspondent of the Associated Press here, upon excellent authority, says that the international sugar conference at Brussels is practically certain to end in a disagreement between the powers concerned therein, with the result that France and Great Britain will take active steps against the American and Cuban sugar interests. The "Tadlets" (organizations for sugar refining) in the latter countries form the rock which delegates to the conference will fall upon.

France and Great Britain are practically committed to a commercial alliance in an endeavor to suppress sugar production.

CONTRADICTORY REPORT.

BY THE NEW ASSOCIATED PRESS-P.M.

LONDON, Jan. 22.—[By Atlantic Cable.] The correspondent of the Associated Press here, upon excellent authority, says that the international sugar conference at Brussels is practically certain to end in a disagreement between the powers concerned therein, with the result that France and Great Britain will take active steps against the American and Cuban sugar interests. The "Tadlets" (organizations for sugar refining) in the latter countries form the rock which delegates to the conference will fall upon.

France and Great Britain are practically committed to a commercial alliance in an endeavor to suppress sugar production.

SCHEEPERS ALREADY EXECUTED.

BY THE NEW ASSOCIATED PRESS-P.M.

NEW YORK, Jan. 22.—Associated Press has received the following:

"It has just been discovered that through a cable error, an Associated Press dispatch of last week announced the death sentence upon Commandant of the Imperial Guard army had been confirmed by Gen. Kitchener, and that he would be executed next Saturday. The fact is that was executed Saturday, January 12."

"THE ASSOCIATED PRESS."

SMALL VICTORIES.

REPORTED BY KITCHENER.

BY THE NEW ASSOCIATED PRESS-P.M.

LONDON, Jan. 22.—[By Atlantic Cable.] Lord Kitchener, in a dispatch dated Tuesday, January 21, says Gen. Methuen overrode a Boer commando near Boshpoort January 20, and after a running fight of eight miles captured all their wagons and cattle and twenty-four horses.

Gen. Hamilton made a night march against Botha, near Wilkham, January 18, but the Boer commander had left the camp with the British force, and the latter, however, captured twenty-seven prisoners.

PRESENT FOR VETERANS.

BY THE NEW ASSOCIATED PRESS-P.M.

NEW YORK, Jan. 22.—Prince Henry will take with him to the United States a bronze cannon as a present from the Kaiser to the Central Union of German-American veterans who have been in the service of the Kaiser, the Berlin correspondent of the World.

The cannon was captured from the French. It is destined for Philadelphia, where the Prince will probably make a speech in presenting it to the German-American veterans.

The Prince will travel in civilian dress while he is in the United States. Philadelphia is the latest addition to the list of cities which the Pope, who was backed by the Italian

army, has visited.

ENLARGING ITINERARY.

BY THE NEW ASSOCIATED PRESS-P.M.

WASHINGTON, Jan. 22.—The Committee on Arrangements for the reception of Prince Henry is studying figures submitted by railroad experts in the form of suggested itineraries, and the committee has decided to take the route from various cities for the Prince's attendance. It is said that it will be possible to give the Prince's visits a wider range than was first planned, and it is now pretty well agreed that he will go to Chicago, St. Louis, Cincinnati, Indianapolis, Milwaukee and Boston.

HANDSOME GIFT.

KAISER TO HARVARD.

BY THE NEW ASSOCIATED PRESS-A.M.

BERLIN, Jan. 22.—[By Atlantic Cable.] The gift of Emperor William to Harvard University will be much larger than was first supposed. The Emperor's gift consists of casts and some bronzes, illustrating every phase of German art from the time of the Renaissance to the present.

"Cohen and I started with them to the rear," says Cummins. "The prisoners resisted, and in the mix-up that followed, they were killed. Metcalf had a difficult time, but I don't think he was the shooting. We killed the Filipinos in self-defense."

EXONERATES METCALF.

Former Private in Twentieth Kansas Says He Killed the Filipino Prisoners Without Knowledge of Officer.

BY THE NEW ASSOCIATED PRESS-A.M.

KANSAS CITY, Jan. 22.—[By Atlantic Cable.] A former member of the Twentieth Kansas Regiment, as admitting that he and Maurice Cohen, deceased, shot and killed two Filipino prisoners at the fort of Caloocan, and exonerates him of the charge. Cummins is quoted as saying that Metcalf had ordered himself and Cohen to take the prisoners to the rear.

"Cohen and I started with them to the rear," says Cummins. "The prisoners resisted, and in the mix-up that followed, they were killed. Metcalf had a difficult time, but I don't think he was the shooting. We killed the Filipinos in self-defense."

BAKERSWELL WRECKED.

AUCKLAND (N. Z.), Jan. 22.—News has just been received here that the steamer Bakerswell, bound for San Francisco October 8 for Queenstown, was wrecked November 14 at Rose (an island in the east Tuamotu group in the South Pacific). Part of the crew are at Tahiti and two others at Papeete. The captain and three men are missing. Assistance has been sent to the Suez.

VIRCHOW'S CONDITION.

PHYSICIANS APPREHENSIVE.

BY THE NEW ASSOCIATED PRESS-P.M.

BERLIN, Jan. 22.—[By Atlantic Cable.] The condition of Prof. Rudolph Virchow, the eminent pathologist, who injured his thigh by a fall when alighting from a street car the early part of the month, is the subject of apprehension among his physicians. The professor is growing weaker as a result of the accident.

THE TIMES-MIRROR COMPANY.

THE SOLID GROWTH OF SOUTHERN CALIFORNIA.

Commenting upon the departure made by The Times during the past two years, in its Midwinter Number, in embracing under the heading of Southern California thirteen instead of seven counties, a Kern county paper approves of the idea, and expresses the belief that, from now on, Los Angeles business men will draw a large and rapidly increasing trade from the San Joaquin Valley counties.

On the other hand, a Northern California paper is inclined to be sarcastic, and congratulates The Times on its modesty in not including San Joaquin and Sacramento counties in Southern California. While acknowledging the imputation of modesty—which is one of our chief failings—we would draw attention to the fact that, so far as San Joaquin county is concerned, it is well represented here, although we do not include it among the counties of Southern California. San Joaquin county has an active agency in Los Angeles, which advertises daily in an attractive manner in the columns of The Times, and has already accomplished much good in the way of drawing attention to that flourishing section of the State. More recently, the San Joaquin Valley Commercial Association, with headquarters at Bakersfield, has taken steps for the extensive advertising in Los Angeles of the section within its scope, and will establish a bureau in this city. As to Sacramento—well, really, we think we must draw the line at Sacramento. Our people have had wide experience in knocking a tough section into shape, but Sacramento might be a little too much; even for them, and, then, it is just possible that some day or other Los Angeles may be a sort of a Sacramento, as it were, and it would be something embarrassing to have two State capitals in the family.

The including of thirteen counties of California under the designation of Southern California is, as The Times has shown, entirely reasonable and logical. These counties represent, in area, almost exactly one-half of the area of the State, therefore they have a right to be called Southern California, just as the northern half has a right to be called Northern California, if the English language means anything. At the same time this journal takes occasion to declare that it has no purpose to create sectional jealousies; and it has never advocated State division.

Again, the thirteen counties named, with one or two exceptions, are mainly dependent for their prosperity upon irrigation, regarding which the northern counties know little and care less. The settlement of this question of water ownership and distribution is to be one of the most important questions before the people of California during the next decade, and it is natural that these counties should look to the chief city of the irrigation belt for sympathy, guidance and support.

Another northern publication, the Building Review, of San Francisco, has been trying to be funny at the expense of The Times. The Review, after saying some pleasant things about the Midwinter Number, proceeds as follows:

"The Times, in one article, however, draws, to our mind, some false conclusions. Because in the decade between 1880 and 1890, on account of the completion of the through railroads, the percentage of gain in population was very large, it goes on to show that in 1890, at the same rate, Los Angeles will be as large as San Francisco."

"Some years ago, two married men, with two male helpers, settled up in the Tules, each having a comfortable-sized farm, the dwellings being near together. They called it a town, hanging up a shingle on one house, styling same the Tule Hotel. There were but six inhabitants to the town; in course of time, each wife presented her husband with twins; with extra help, etc., the population soon grew to twenty. By the time the acre ranch to a man with ten children (eight of whom were marriageable daughters, who soon drew four score or more husbands), besides four

hired men, up jumps the population to thirty-six. In course of the natural period, more children were born, a little store erected, a blacksmith shop, a small hotel, etc., came into existence, so that at the end of three years the population had grown from six to 60. Now following the reasoning of The Times, if the same rate computed annually, it would take but comparatively a few years for that Tule town to be larger than London.

The Times computes its own future growth at a percentage running into the hundreds, while poor San Francisco is only allowed an increase of 15 per cent. Such wild figures take away the glamour from what would otherwise be a most commendable example of newspaper enterprise."

This would be funnier, if it were not far-fetched. The Times does not base its conclusions from the past of Los Angeles, or its predictions as to the future on the showing of a year, or half a dozen years. We base our estimates of the probabilities of the near future upon a record of a decade—quite a considerable period in the history of an American city. We have shown that, during the ten years between 1890 and 1900, Los Angeles has increased in population 105 per cent., and in the value of manufactured products 115 per cent. It has also increased its bank clearings during that period 300 per cent., and last year the value of the building permits issued in Los Angeles was about the same as in San Francisco. The growth in population is shown more strikingly by the statement that from 1890 to 1900 Los Angeles added to its population 18,000 more people than did San Francisco. This does not look much like an ephemeral or sporadic growth.

As to the statement of the Review

that the growth between 1880 and 1890 is due to the "completion of the through railroads," that is true, to a great extent, in regard to the beginning of the growth; but twenty-five years have now elapsed since the Southern Pacific was completed, and sixteen since the opening of the Santa Fe route. During the latter part of this period our population has increased from 50,000 in 1890 to over 100,000 in 1900, and now, in January, 1902, there is not the slightest doubt that the population of the city is at least 120,000. If the opening of new railroads has such a marvelous effect on the growth of Los Angeles, then we may safely anticipate that, with the completion of one or two new roads by way of Salt Lake, together with the opening of San Pedro Harbor, the population of the city in 1910 will be considerably more than 200,000, the estimate usually accepted here.

The trouble with our Northern California friends is that, while they are content to sit around and talk about the "days of forty-nine," the people of Southern California are living in the twentieth century, and doing things. If the people and papers of Northern California are wise, they will stop making faces at the "fag end of the State," and imitate our example by getting to work.

TOBACCO TABLIER.

In an editorial on the Cuban reciprocity question, in yesterday's Times, we said that the arguments advanced by the Cubans in favor of a reduction of duties may be well founded in one respect, namely, as to the proposed reduction of duty on tobacco. "If the fact stated in the argument is true, namely, that the United States does not and cannot produce Cuban tobacco," a dispatch from Washington, quoted John R. Young, president of the National Leaf Tobacco Association, as stating that the proposed concessions would wipe out the American-made 10-cent cigar. Mr. Young added that the Cuban cigarmaker would lay down a cigar here for less than the American manufacturer receives for his high-grade goods, and Congress should have little difficulty in disposing of the matter on a business basis. The advantages and disadvantages of the respective routes are now pretty well known, and neither sentiment nor prejudice should be allowed to stand in the way of the selection of the route, which is, all things considered, the most advantageous.

Men may honestly differ, of course, on this question. But it is not likely that there will be a tie vote in either house. There ought to be, and probably will be, a decisive majority in each house, in favor of one proposition or the other. If the question be allowed to come to a final vote, without undue delay, a decision should be reached without much difficulty. But if dilatory tactics be employed in either house, the final decision may be delayed indefinitely. It is, therefore, the obvious duty of every Senator and Representative to refrain from delaying action unnecessarily,

and to allow the question to come to a final vote in due course. In order that a decision may be reached in accordance with the opinions of the majority in each house. In the extreme event that there should be an irreconcilable difference of opinion between the two houses, the choice of routes might be left to the President, though it would hardly be fair for Congress to shift this heavy responsibility to the President. The latter, however, would probably be willing to accept it rather than to have all canal legislation fail at this session of Congress.

A vast majority of both Senators and Representatives profess to be extremely anxious that canal legislation shall be enacted at this session of Congress. The disposition of the pending issues will test the sincerity of these professions. If they are sincere, the two houses will get together on the question, and in the near future will pass the necessary law for the beginning of work on either one route or the other.

The American people are weary of gab and nonsense. They demand that the work of construction shall begin.

A New Jersey man has just died who never smoked, chewed nor drank, never went to theater or circus, never played cards or dominoes, never staked with a girl, never was in love and never married. Possibly there are other things this unfortunate man was hopelessly lost.

What have these misguided men, to day, to show for their losses of wages and their direct expenditures of money? Many of them have not yet recovered from the financial distress which the strike brought them. The wages lost can never be restored. They won nothing whatever in the contest, and they lost control of the mills which they controlled before the strike. But Shaffer's family was gratified. For a few short days he posed and strutted his brief hour as a "bigger man than old Morgan. He was in "the public eye," and though it was a most untenable capacity his inordinate self-esteem was satisfied. Many of his products were highly commended as being well made.

Still, England needn't feel at all jealous because Germany is coming over to slide down Uncle Sam's cellar door. The back yard is ample enough for other European playmates to romp in whenever they care to make a visit.

Now Shaffer is talking glibly about "the next contest," and the amount of money which the association will have to spend to get it off the ground. He is a good fellow, but he is not the only one who is not yet recovered from the financial distress which the strike brought them. The wages lost can never be restored. They won nothing whatever in the contest, and they lost control of the mills which they controlled before the strike. But Shaffer's family was gratified. THE PUBLIC SERVICE—IN THE COURTS AND OFFICES.

SUMMARY OF THE DAY.

Quite a sensation was caused at the City Hall yesterday by two suspected varicose patients, who were examined and fumigated in the corridors.

The Police Commission yesterday found the Health Department of an order limiting the district in which restaurant liquor license permits can be present.

The defense of insanity was made in the Sampson murder trial yesterday, and the arguments to the jury will be heard today.

Rev. P. F. Bresce sued the Traction Company for \$15,000 damages yesterday.

The District Attorney announces that the McKee milk, alleged to be "poisonous," contained chloroform.

AT THE CITY HALL.

QUARANTINE PATIENT
CAUSES SENSATION.TWO SONS OF ERIN FUMIGATED IN
THE CORRIDOR.

City Officials and Deputies Get a "Creepy" Feeling and Roundly De
sounce Policemen—Council Scared for
not Providing Better Health Facilities.

When Murphy and Maloney were playing hide-and-seek about the surgery room in the Emerald Isle they were expected to cause such a sensation as was produced by their appearance at the City Hall. Murphy was sent to Sampson to play the star role in the municipal melodrama; Murphy did new specialties; and the police and Sheriff Oeffler did the rest.

There were many curious spectators at first, but Maloney undoubtedly brought the fun into the house. By the time Murphy made his entrance in the second act, the crowd was greatly diminished.

As a sequel to the performance, Maloney is now at the semipros hospital in the Chavez Ravine, suffering from a light attack of varicose, and Murphy will pay the debt of salvation by remaining in quarantine for three weeks.

But the spectators are still uttering loud and long protests. Most of them were city officials who could feel the heat of the sun.

All other residents of the city, One or two of the city officials fatigued over the afflicted man, and Murphy will pay the debt of salvation by remaining in quarantine for three weeks.

But the spectators are still uttering loud and long protests. Most of them were city officials who could feel the heat of the sun.

Then the application was filed and the Chief started on a still hunt for the ordinance. In some way the public was informed of the application at the Police Station, for the ordinance was found recorded according to due and ancient form in the office of the City Clerk.

However the applicants for restaurant liquor licenses will have to ascertain whether they are in the district before they can hope to secure a permit to sell liquor from the Police Commission.

Sam Sullivan, whose application for a restaurant liquor license had been denied so many times that the Chief had given up trying to get it, applied again to the Chief for investigation.

Samuki Akita, formerly a dealer in bamboo, was formally launched as a purveyor of wet goods by the Police Commission yesterday with a special liquor license was granted at No. 506 North Los Angeles street.

The Chief reported that Akita has a better understanding of the law than half the saloon keepers of the city.

Maloney was discovered by a police officer to be in the cheap lodgings houses on East Third Street. The eruption on his body indicated smallpox, but he was arrested and brought to the City Hall. An officer had him brought to the performance, Maloney is now at the semipros hospital in the Chavez Ravine, suffering from a light attack of varicose, and Murphy will pay the debt of salvation by remaining in quarantine for three weeks.

After Maloney had been bound off to the hospital the fumigation of the hall began, and the patients in the small public toilet room at the rear of the upper corridor in this room the man was stripped of his clothes being sent to the saloon hall fumigated could be fumigated. Before Dr. Powers could be secured to examine the suspect, marching him through the front door of the hall, while the other inmates who were not bound off to the saloon keepers of the city.

There was no place in the Health Office to receive the patients in the small public toilet room at the rear of the upper corridor in this room the man was stripped of his clothes being sent to the saloon hall fumigated could be fumigated. Before Dr. Powers could be secured to examine the suspect, marching him through the front door of the hall, while the other inmates who were not bound off to the saloon keepers of the city.

William Edmundson was granted a transfer of the saloon license at No. 541 North Main street from J. K. McMurtry.

Stanis P. Clark was granted a transfer of the saloon license at No. 52 South Main street from Francis G. Westcott.

Pearson was appointed a special policeman to serve without pay at the mill of the Stinson Milling Company. The usual grist of minor transgressions was committed by Pearson.

Mayor Snyder and Commissioner Keeney and Walker comprised the board yesterday.

TOP AND THE GARAGE PILES.

On Eleventh street that is a serv
and the top is the prototype of the
the cross-examination of the doctor
was conducted by the police and
the last few days has been a person of
interest to the health authorities. Some
was the habit of emptying
garbage along the gutters on Eleventh
street. The police found that when
inspector Sanborn visited the locality
there were several small piles
along by the curb. Suspicion became
fixed on Tompkins, who no notice
was given to the Health Office, and
perhaps Dr. Powers might want to est
ablish the endless-chain system. The
men were also married to Tompkins
and he was married to the City Hall.
He had started up the stairs when Dr.
Powers appeared on the scene, and per
emptorily ordered the policeman and
the men to leave the hall fumigated
no signs of disease, but he was re
manded to quarantine, while his as
sociate was allowed to go. Both the police
and the men for whom he worked
they asserted that their orders were to
bring the patients to the Health Office,
and they were only obeying instruc
tions.

While there are a few isolated cases
of smallpox in the city at the present
time they are all directly traceable to
the small mountain mining camps,

BUSINESS.

AND COMMERCIAL

OF THE TIMES.

JANUARY 23, 1902.

FINANCIAL

JOHN HILL Speaking of

and its possible effect

on the American Banker

should become operative,

the aid of government se-

cure will be returned.

What will be the effect

of these bonds on the

stock market? Doubt-

the slightest profit could

be in the transaction. We

have a potential increase

of 25 per cent.

The surplus fund of

the bank will be accumu-

lated among the

depositors for a fresh in-

vestment. This pro-

cess will at least a moment's

time be sought to pro-

duce a favorable result.

COTTON. Speaking of

the cotton market, we
